## OUR STUDENT LEARNING JOURNEY

### STREAM TO YOUR LMS

Organizations can stream our courses and video lessons to their existing learning management system using SCORM 1.2.

### VIDEO TRAINING

Students take individual lessons that make up a complete course. All lessons include an instructional video that is under 5 minutes and optimized for retention.

### KNOWLEDGE CHECKS

After watching the video lesson, students must pass a knowledge check quiz to complete the lesson and move forward in the Pineapple Academy.

### TRACK STUDENT PROCESS

Knowledge checks must be passed before moving forward, so the organization can track every student's learning progress.

### WHAT IS A PINEAPPLE MENTOR?

Pineapple Mentors witness all student skill demonstrations and determine if the student passes the Course or Learning Series.

### COMPETENCY CHECKS

Once a course is complete, students demonstrate their skills to a Pineapple Mentor in order to be eligible for their Pineapple Academy Certificate.

### CERTIFICATIONS

Once a student completes all courses and competency checks, they are eligible to receive an authenticated certificate from the Pineapple Academy.

### ADVANCE YOUR SKILLS

Students can now master skills to improve their job performance, deliver exceptional customer experiences, and advance their career opportunities.
